Subject: Dairy Inspections 3/23
Attachments: CAFO 5S+5F 1000 ft Perennial.xlsx

Hi Charlene,

Dan and I will be conducting dairy inspections Tuesday and Wednesday near Fresno but are planning to do inspections in the 5S Region Thursday on the way back to the Bay area. Attached is a rough list of potential inspection sites.

Please let me know if you think any of those might be good targets so we can begin planning which facilities to inspect Thursday. We would very much like to have an inspector from the Sacramento Office join in the inspections for both the expertise and rapport with the dairies, as well as building our own state professional relationships. If no one is able to join from your office we will conduct the inspections solo.

We were planning on doing at least 2 inspections Thursday, ideally that are adjacent to a WOUS.

Thanks for the help and look forward to hearing back,

Mike
